

# SOILS

Worlds Beneath Your Feet

An upcoming exhibit from  
the Smithsonian's  
National Museum of Natural History

DIG DEEPER AT  
[HTTP://FORCES.SI.EDU](http://forces.si.edu)

**EXPLORE**  
what soil has to do with my life.

**DISCOVER**  
how earth's soils sustain the  
planet, its wildlife, and its people.

Which of these items is made  
from soil?

All of them! Did you know that soils  
are the secret ingredients in everyday  
products ranging from medicines to  
mud baths and from pottery to paint?  
Soils sustain us all and are an  
important, but often hidden,  
part of our everyday lives.
